# IEEE SA 802 EC SOLUTIONS REPORT

## Updates

Issues reported Jul 1, 2018– Oct 31, 2019

- Grouper
  - 18 requests for various services (private areas, mailing lists/archives, access permissions)
  
- Join.Me
  - 193 C/LM meetings held
  - Average 7 connected devices per meeting
  
- Public Review
  - Excessive notifications/improper closure for 802.15.22.3 public review
    - This was caused by duplicate ballot records in myProject resulting in improper closing of the public review.
    - Public review was manually closed and the duplicate ballot was terminated in myProject
  - 802.3cn comment disposition, unable to add more than 1,000 characters
    - Increased response field limit to 2,000 characters and moved status back to allow responses
  
- myProject/IMAT/Mentor
  - No new issues reported
  
- iMeet Central
  - No new issues reported
