IEEE

MENTOR/IMAT

- Sync with myProject still only functional for 1-way updates.
    - Issues were reported and we are investigating options for improvement
        - Already implemented: Update user email and employer fields in both systems to use most recent updated value
        - Potential improvement: If SA PIN values are included in the roster uploads, key on this value instead of email. This will ensure more accurate updates if emails change after list is downloaded.
    - Please report all issues to standards-support@ieee.org
